Guidelines to use large private outdoor space (decks or private gardens) more effectively:

If a unit has large outdoor space (decks or private gardens or terrace or similar), they are most effective if used for a variety of different purposes (rather than repeating standard / similar setup of table and chair everywhere). Some of the options to consider are:

a. Dining - Table and chairs
b. Seating – sofa / chairs and table / beach chair (if water body nearby)
c. Swing (regular / bubble / other)
d. Hammock
e. Yoga / exercise setup
f. Bar setup
g. (Indian) Barbeque setup
h. Kids play – something outdoorsy eg. Rock climbing wall
i. Vegetable / Herb garden (if soil depth is limited, can use planter boxes) – particularly outside kitchen (if not being used as Utility area)
j. Utility area
