Natural Stone Usage

Natural Stones: Any material which is quarried from a natural stone including marble, granite, kota etc.

Objectives:

a. To ensure high degree of aesthetic elegance.
b. To minimize wastage of material.
c. To minimize processing at site.
d. To ensure ease of handling at site.

Guidelines:

1. Prescribed size of natural stones cannot exceed 6 sq. ft. per piece. Of this at least one dimension should be 2 ft (600 mm) or lesser.
2. As far as practical, natural stones should be brought in pre-cut tile format to site.
3. Pre-polishing may be considered if feasible, else polishing may be done after installation at site.

This policy shall apply to all <u>buildings</u> (not projects) where flooring works have not commenced as on 30.6.2011.
