OUR PHILOSOPHY

Corporate Governance

We believe in an 'Absolute Quality' doctrine that goes beyond verbal definitions. We believe that it is a result of practicing the same in everyday operations. Precisely why, we have implemented rigorous quality standards of governance across the company. Every project is assigned a dedicated team to ensure on-time deliveries adhering to our impeccable quality standards. To make this happen, the teams are supported by state-of-the-art technologies such as ERP solutions to ensure efficient operations. Excellence is of utmost importance at Acme. To achieve it, Acme has invested in quality control management processes and has been conferred with the ISO 9001:2008 certification; a proof of commitment, quality and an impetus to work relentlessly.

Redevelopment - The Acme Way

Every redevelopment project is unique and requires a tailor-made approach resulting from a complete understanding of the society's needs and concerns. Beyond just redesigning homes, Acme focuses on reinventing the residents' lifestyle that exc eeds expectations. This two-pronged strategy has helped us complete over 20 redevelopment projects that stand testimony in fulfilling the aspirations of millions.

Corporate Social Responsibility

Greatness is a result of not just being the best, but also being responsible. In that path, Acme has always been at the helm of contributing to the holistic development of the society. As an initiative to provide affordable homes, Mr. Pravin Doshi in partnership with the Maharashtra Government and MCHI has pledged to construct 500,000 homes through his 'Homes for All' program within a span of 5 years in Mumbai and nearby areas

In an advent to construct quality educational institutions, Mr. Pravin Doshi being a Kelavani Mandal's member, closely guides the civil and construction activities of SVKM.

He has also helped in the rehabilitation of L atur's earthquake victims by constructing 296 quality homes in a short span of 9 months; an effort honored and awarded by the Chief Minister of Maharashtra.

As a progressive and value driven enterprise, Acme believes in valuing humanity and continues to chart a path in pioneering the next and making a positive difference to the society at large.

Going beyond the call of duty, Acme Group has signed an MOU with Habitat for Humanity (An International NGO) to construct one toilet for the poor, for every house sold by the Acme Group.
