Good day Safdar and Malik,

Further to your concern on quality of benches I would like to bring in your knowledge that pictures showing chip-out corner of benches is not due to poor quality, it was due to mishandling of your site guys which happen during lifting and shifting. This benches is not meant for any sabotage and vandalism unless won't effect from any personal usage or natural effect on benches. This chipoff had been observed by our site engineer during our site visit in month of December /January.
However, will rectify same on site after situation back to normal. Shortly will update you with cost and time of rectification.

Thanks and regards
Fazlu.
