# The Company

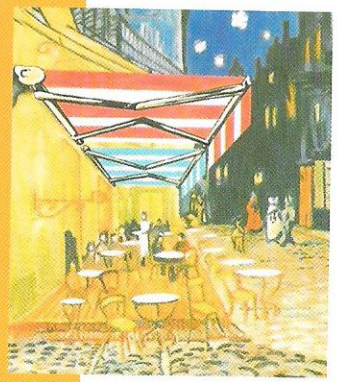

## The Company

Systems India is the first Company in the country which specialised in Outdoor Solar Protection products. Incorporated in 1986 , we started manufacturing and marketing of all kinds of Exterior Solar & Weather Protection Products with Weather resistant Aluminum frames & Outdoor Technical fabrics. Manufactured in-house , using High Quality Fabrics and components , our products have been used in segments as wide as Residential , Commercial & Corporate sectors around the country for over 30 Years. We are the #1 bestseller brand in Awnings in India , widely recognised & respected by hundreds & thousands of customers across the country.

Systems is also the #1 brand in Awning components manufactured at its facility in New Delhi , India . Systems Awning components are used by hundreds of Awning assemblers across the country to assemble high Quality and durable awnings . Manufactured at our facility , using the best raw materials and equipments . We are the first Company in India to launch the Concept of creating Weather Proof Outdoor Spaces with our Retractable Pergolas and Skylight Systems.

We partner with globally leading & quality manufacturers of Outdoor fabrics for Awnings , Retractable Pergolas , Umbrellas , Tents , Roller blinds & Performance Indoor & Outdoor furniture fabrics . Our fabric range includes popular brands like Prosolar Solar Protection Fabrics from Dickson – France & Sunsetter Turkey.Our Range Sun'N'Joy Furniture Fabrics from Tempotest Home by Para Italy and Acrisol from Tuvatextil Spain are the most Durable Fabrics for Furnishing use .

Our Corporate office & manufacturing facility is based in the capital – New Delhi with Branch offices cum warehouses in Mumbai & Bangalore. We cater to customer requirements across India through a partner network in every state & major towns. Systems products are available through about 500 awning makers across India. Ask your local assembler to use a Systems product & you would be glad for years that you did so .

## A Whole new dimension to spend an evening out with panache.

The Illuminati model from Systems adds a completely new experience to enjoying your awning both in the day & by night. As evident from its name, the Illuminati is an awning with integrated LED lights in the front bar and spot lights either on the front bar or the square bar on the rear. You could switch on both when more light or a festive environment is required or just switch on the spot lights to create just the right ambience for a quiet evening under the comfort of your awning.

Integrated LED Lighting System in Front Bar & Square Bar .

- Stainless Steel Tube & Bolts .
- Chrome Plated Caps .
- Available in Metallic Black and Burgundy Color Frame with Die Casted Parts.
- Standard Projection – 5' to 12' .
- Premium Luxurious Finish & Aesthetics.
- Warranty of 5 Years for Manufacturing Defects.

## The new awning system, meets the highest standards

Introducing the LUNAR Retractable arm awning in its new avatar with excellent strength, finish and durability. Designed and engineered as per contemporary awning components manufactured and accepted globally, the LUNAR components are made with high strength extrusions cut and finished to size. High quality Dies are used to extrude the all new components for the Arm Shoulder, Side Plates, Wall Clamps and Front Bar. All LUNAR components are phosphated and powder coated white to give it a gleaming international look. Side plates, Tube endings and all bolts are covered with molded ABS caps that add beauty and compactness to the awning. Arm sizes available from 5 feet to 12 feet or 1.5 m - 3.5m for exports.

- Die Casted Components in Rich White powder coating .
- Stainless Steel Bolts .
- Full ABS Caps for Ends & Bolts .
- Strong Front Bar for better strength & balance.
- Stainless Steel Square Bar 100% Rust resistance.
- Warranty of 5 Years on Manufacturing defects.

The FOSSIL is a beautiful basket shaped awning used for protection and adding beauty to windows in homes, offices, clubs & hotels. Manufactured using high quality aluminum alloy extrusions, high impact plastic moulded Hinge Joints and Corner Joints. Can be made in projections of 2' to 5' with custom- made length. Larger lengths would need a T-Joint Hinge set, T-Joint and additional section for support at every 12' or 3.65 mtrs. Installing FOSSIL over windows cuts heat gain inside the room from 67% to 77% thus making the rooms much more comfortable & hence reducing air-conditioning cost by up to 20%!

# Vertical Awnings

Systems Vertical Awnings are an extremely efficient form of protecting balconies & verandas from both Solar heat and rain . Covered balconies and verandas could be converted into comfortable zones of re-creation or relaxation provided they can be protected from the harsh heat from the sun and also provide privacy when required. Systems Vertical Awnings do just that , provide the user a completely open view or have the privacy desired to have a private siesta or celebration Vertical awnings can be rolled up or down completely manually or with Motorised operation. Beautiful weather resistant fabrics in the colour & design of your choice to create a setting with the comfort of being indoors and at the same time enjoying the freshness of being outdoors

## Dutch Canopy Awnings

Systems Dutch Canopy Awnings, also popularly known as French Canopies are ideal for French windows and Arch shaped windows. Although, initially designed for windows, the application of Dutch canopies is now used extensively even as Entrance canopies. Dutch Canopy awnings provide excellent balance of Solar control combined with Visual control , providing just the right amount of privacy & natural light inside a room. The solar protection benefits go upto 77% protection and Energy savings upto 20% if used on all East & West facing windows.

Beautifying your home is another aspect on every persons mind. Dutch canopies would enhance the beauty of your home to make it more inviting for you after a hard day at work. Guests would feel more attracted & comfortable right from the time they set their eyes on your exterior decor and you would be flattered with praise for your aesthetic cum architectural sensibility.

RETRACTABLE ROOFS

## SkyShade Systems

Do you like have the natural Sun rays of the sun come down into your room in the early morning ? If you want to create a Glass Sun roof in your room , courtyard or extended patio but don't know what to do when the Sun rays get really harsh and hot during the day , Retractable SkyShade Systems is just the solution to being able to have that Glass roof with the flexibility to control the amount of sun you want with the flick of a switch . Our Skylite Systems are designed to be fitted over or under a glass roof with an automated system , weather resistant fade proof fabrics and durable Aluminium members to provide you with a Retractable skylight that would let you enjoy the stars in the night and give you the amount of natural light in the day that you desire . Skyshades can also be used vertically outside or inside large windows or doors and to create Rolling Walls in our Pergoluxe .

PergoLuxe

INTELLIGENT ROOFS

## PergoLuxe for Homes , Restaurants & Cafe's

Retractable Pergolas from Systems are simply one of the most Beautiful and Functional solution to create an Outdoor space , yet completely weather protected. PergoLuxe can be used in Homes as an extension to a room with a Retractable Weather Proof fabric Roof and create a space that is totally sun & rain proof but also retracts completely to enjoy the outdoors.

Pergoluxe for Dining and Leisure areas in Hotels , Restaurants and Cafe's is just the best solution to increase the dining space. A Rooftop restaurant is just perfect for a dine out but the harsh sun or rain and even the cold just make this space non-useable . Create an Outdoor-Indoor Space with our PergoShades with completely Retractable Roofs , Foldable Glass UPVC doors or Retractable Fabric systems . Air-condition and heat as per the weather demands and provide your customers an Un-Beatable experience . Integrated LED lighting creates an ambience for a beautiful dining experience in the evenings .

Designed to functional flawlessly in the Outdoors with an Aluminum structure , Advanced automation & controls and weather proof outdoor fabrics , you just have a perfect space .

## Mediterranean

### The Strongest Weather Resistant Framed SS Garden & Poolside Umbrellas in the Market

The Mediterranean is a Garden & Poolside umbrella with a unique design to create great harmony between the functionality and looks of the umbrella. It has a 3 Layered , 2 Layered or Single layer design with air gaps between the layers of the umbrella stacked over each other to provide better resistance to wind and allow it to escape through the layers . In addition the Multi- layered design provides a very unique and beautiful aesthetics to the umbrella enhancing the ambience and experience of your outdoor sitting . The Mediterranean is manufactured using a premium looking Stainless Steel frame or a powder coated MS frame . The frames are sturdy & strong and rust proof for the wettest of climates . These Umbrellas are available in diameters of 8' to 15' .

There is a large choice of outdoor weather resistant fabrics to choose from starting with an outdoor warranty on the fabric from 1year to 6 years . Choose your fabrics from our collection ranges of Grace & Tiara from Italy , Prosolar from France and Sunsetter from Turkey.
