Kids Play Area – Guidelines

See attached images. Searching web for kids play area or children's play area or soft play area can give you lots of ideas.

Generally, this room should be colourful and bright with following elements:

a. For active kids – indoor slide OR indoor castle / train or equivalent
b. TV with DVD player and good mix of children's dvd's and music cd's
c. Floor mats / rubberized flooring (since kids then to fall a lot)
d. Loose play equipment (balls, toys etc.)
e. Children's books, stacked in easily accessible shelves
f. Children's games, stacked in easily accessible shelves
g. Blackboard/whiteboard for kids to scribble on
h. Low tables and chairs / seating for the kids
i. If toilet is attached, low fittings for easy use by the kids
j. An adult chair for the supervisor

Size can be anywhere from 150-300 sq. ft. (not applicable to crèche, which may need to larger if catering to a large audience).

This is one of the most important elements of a development, since if the kids are happy, parents will be happy. Good creative thought is needed to make these well at reasonable cost.
