GEBERIT

Geberit Concealed Cisterns for Lodha.

Core statements

- The European market leader in sanitary technology
- Global presence
- Powerful brand
- Outstanding technology platform
- Successful business model
- Sustainably high cash generation

Geberit Sales proposition vis-a-vis close coupled mechanisms

Modern design	→ Modern look of toilet → Harmomised bathroom → Freedom of scope with actuator plates (material, design and application)	→ Lifestyle → Well-being → Prestige → Vitality
Wall-hung toilet	→ Smooth surface, no dirty edges → No obstacles on the floor	→ Easy and efficient cleaning → Hygienic toilet → Time saving cleaning
Water saving	→ Water saving, less water consumption → Choice between small and big flush → Flush settings can be adjusted (4,5l)	→ Reduced water costs → Oecological contribution → Flexibility to match needs of toilet supplier for optimal flush performance
Space saving	→ More space in the bathroom → Bathroom appears bigger → Flexibility in confined spaces	→ Optimised space usage → Improved interior feeling → Free moving space → Ledge wall creates freedom of scope
Strength and stability	→ Wall-hung toilets can be installed → Sturdy construction withstands weights of 400 kg → Complies to EN standards for wall-hung ceramics	→ Safety → Toilet and cisterns stays in place
Easy accessibility	→ Easy and efficient service → Access to internal components	→ Saftey → Reduced service costs

GEBERIT

ALPHA NAKED CISTERN WITH FRONT ACTUATION

GEBERIT

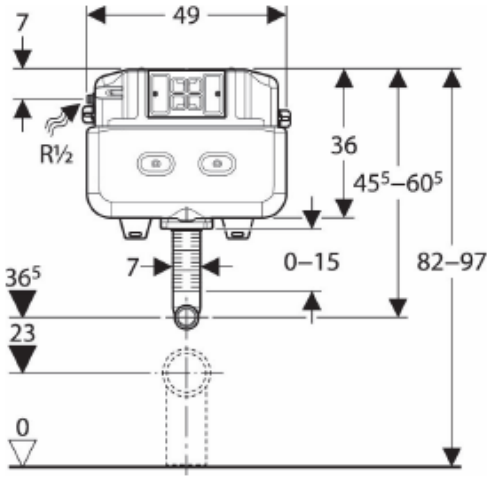

Geberit Alpha concealed cistern 10.5 cm

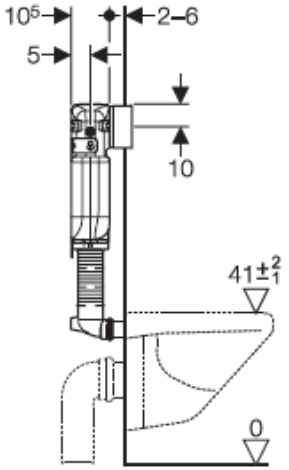

Art No.109.010.00.1

Technical Data

factory setting	6/3 L
cistern volume	9 L
for mechanical actuation	
flow pressure from	0.2 – 5.5 bar
with inlet connector d45	

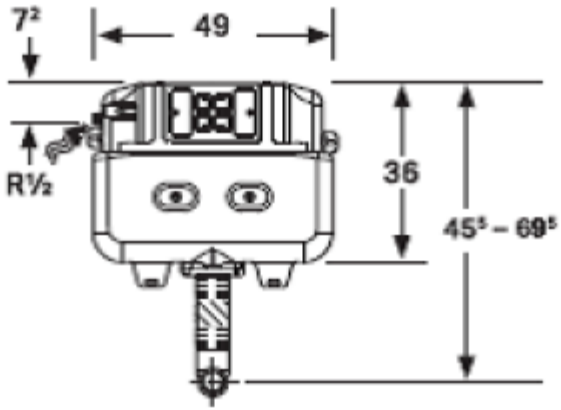

Installation Alpha Concealed cistern

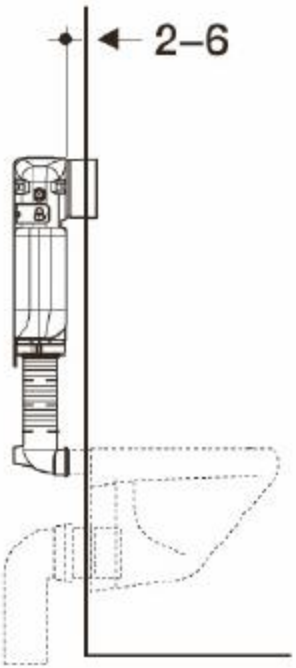

Installation height 97 cm can be reduced to a minimum of 82 cm

- Feature
  - Installation height is 97 cm
  - Flush bend can be shortened by maximum 15 cm
- Advantage
  - Lower wall heights to a minimum of 82 cm are possible
- Benefit
  - Large variety of installation situations are possible

Minimum lining of 20 mm

- Feature
  - The possible lining in front of the cistern is from 20 mm to 60 mm
  - With an additional extension set a maximum lining of 150 mm is possible
- Advantage
  - Installations with standard lining in India can be realised
  - Installations with oversized linings can be realised with the extension set
- Benefit
  - Large variety of installation situations are possible

GEBERIT

Technical Data

– Flow pressure range	0.2 - 5.5bar
– Flush volume small not adjustable	3l
– Flush volume large not adjustable	6 l
– Inlet connector d45	
– Cistern thickness	10.5cm

Scope of Delivery

- Connecting nipple R1/2 with stop valve
- Protection box
- Flush bend 90°
- Flush bend extension, ø 45 mm
- Protection plug
- Fastening material

GEBERIT

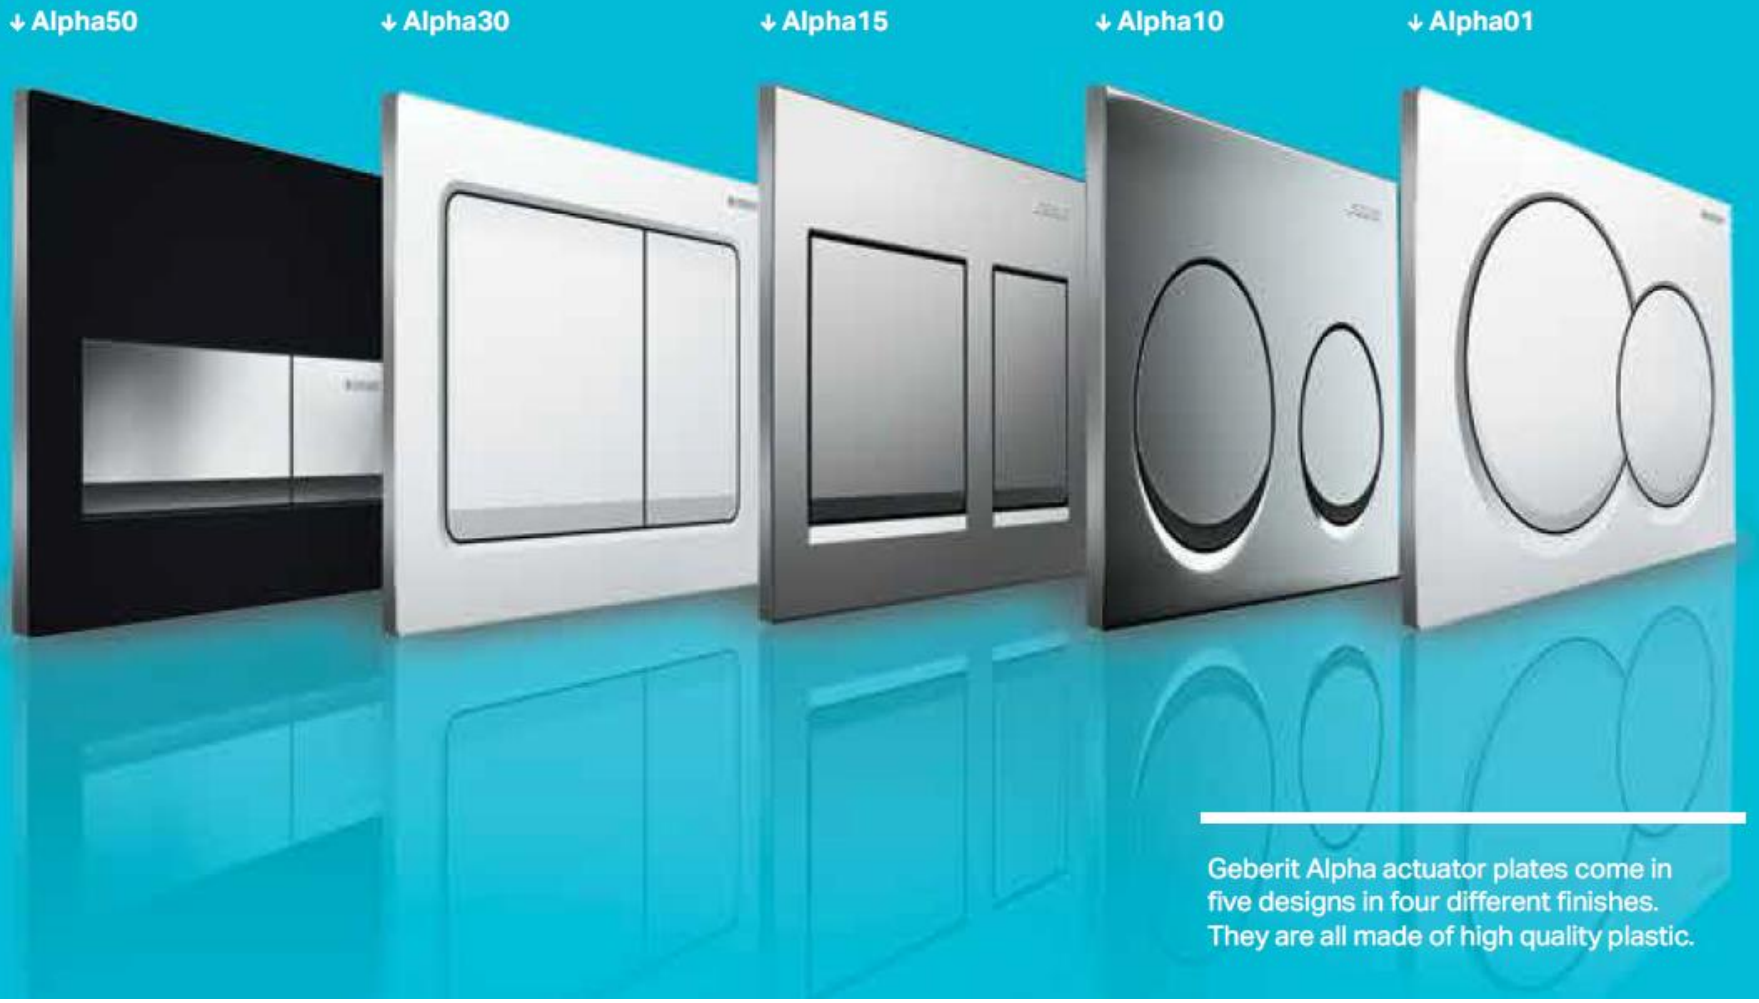

Geberit Alpha
Actuator plates.

21 November 2017

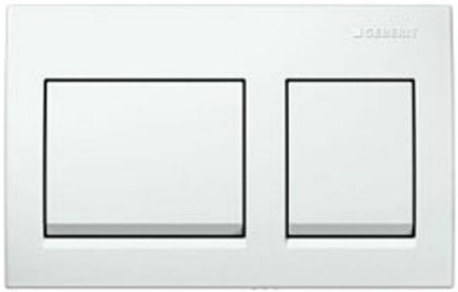

The Geberit Alpha range

The various actuator options, perfectly balance design and environmental friendliness.

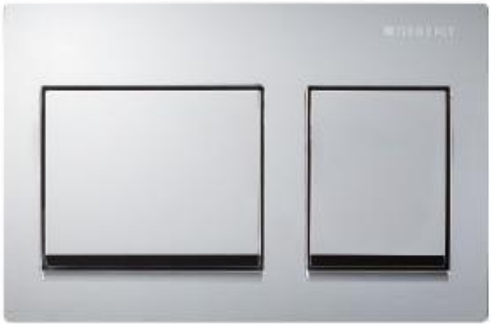

Geberit Alpha actuator plates come in five designs in four different finishes. They are all made of high quality plastic.
