Dear Riyaz,

As required please find attached the 3 cases as discussed with our Liason team for the podium proximity to the village line/existing bldgs.

Kindly note that all the 3 cases given are for ground floor height podium.

The 3rd case will be possible only if all the 3 STPs will merge. Also this will not be preferable in terms of openness for units of existing wings & time taken for the merger of all STPs.

For G+1 Podium we will get back to you mostly by end of this week.

Regards
Gauri
