Policy for Selection of Fire Fighting Materials

For selecting the materials for Fire Fighting works below mentioned practices are to be followed.

1. It is proposed to use GI pipes for wet riser and sprinkler piping for various projects in Greater Mumbai / Mumbai suburb / Thane.
2. MS piping shall be used for the projects at Dombivli / Hyderabad / Pune / Lonavala.

But if particular type of material is required as per CFO – NOC, then same shall be discussed with management before finalizing the same.
