Palava city sector 3

2 – Design Intent

Drawing is for design intent only.

Actual dimensions to be confirmed by contractor based on site conditions. Prior to fabrication, shop drawings must be prepared by contractor and signed off by consultant and owner for each signtype and typical location, indicating all construction and interfacing details.

All structural details should be verified and approved by a locally licensed engineer.

All sign content is indicative only and to be confirmed via full size paper or banner mock-up on site for review and approval of consultant and owner at no additional cost.

Material and finish samples are to be provided by contractor and approved by consultant and owner for all materials to be used, based on design intent by consultant.

Sign fixings are to be concealed and to match sign finish.

This drawing is the property of HBA and is not to be reproduced.
