A beautiful bathroom is like a holiday. There is something new to experience every day.

Living bathrooms. The Duravit brand. Holidays are like all beautiful moments in life – they are over far too quickly. What wouldn't you give to have somewhere you could escape to for a mini break – even several times a day? Somewhere you go in order to relax, refresh yourself and just to feel good. A spa for the home where you can enjoy beneficial water and wellness treatments. A dream bathroom that, with ultimate fusion of aesthetics and practicality, makes life a little more comfortable and that can be as relaxing and refreshing as a mini break. And if that isn't enough: compared with holiday memories that will inevitably fade, Duravit washing areas, WCs, bathtubs and furniture offer one crucial advantage: they are here to stay. This is thanks to the extraordinary high quality, high-end materials, careful manufacture and, last but not least, timeless design of Duravit products.

Working on the perfect form…with the best designers in the world.

The Duravit design brand. How do we actually recognize good design? After all, individual tastes can be so very different. Nevertheless, certain attributes serve as benchmarks and qualifiers for innovation. First, Duravit has been the proud recipient of numerous international design awards. These awards celebrate bold design, which has become Duravit's hallmark over the years. Second, there are the designers themselves. Each designer is a specialist in his field – a prominent global innovator with an inherent sense for good design. Good design, as Duravit and its designers see it, is never at the expense of practicality – neither is interested in "design for design's sake." And third? That's you, the bathroom user, and your own set of needs and requirements. Thanks to an ongoing dialogue with its trade partners and sanitaryware dealers, Duravit is best able to address these needs and requirements in the brand's designs. Simply put, Duravit recognizes good bathroom design by the fact that it seems specially-created to suit all individual tastes.
